MISSION

MSM is dedicated to:

- ▶ Improving the health and well-being of individuals and communities;
- ▶ Increasing the diversity of the health professional and scientific workforce;
- ▶ Addressing primary health care needs through programs in education, research, and service, with emphasis on people of color and the underserved urban and rural populations in Georgia and the nation.

CORE VALUES

Our core values guide organizational behavior and shape MSM's future

- ▶ Excellence: Achieving the highest level of performance in all endeavors
- ▶ Service: Treating all people and communities with respect, compassion and empathy
- ▶ Knowledge: Sharing our ideas, discoveries, methods and skills to advance health equity
- ▶ Wisdom: Valuing the knowledge and experience of all individuals
- ▶ Integrity: Upholding the highest standards of ethical behavior, transparency and accountability
- ▶ Innovation: Creating inspired solutions in science, service, and education

COMPASSIONATE CARE INNOVATIVE MEDICINE

Recognized as a Patient-Centered Medical Home, Morehouse Healthcare is a primary care delivery model that is patient-focused and team based, with a special emphasis on quality and safety.

T^x THE ULTIMATE TRANSLATION OF SCIENCE

Developed at Morehouse School of Medicine, T^x™ symbolizes an approach and scientific philosophy. It intentionally promotes and supports convergence of interdisciplinary approaches and scientists to stimulate exponential advances for the health of diverse communities.

The "T" acknowledges the important phases of the translational continuum, while the exponent "x" represents the goal to move research from the Translational to the Transformational.

*Josiah May Jr. Foundation Award for Institutional Excellence in Social Mission (2016) and Annals of Internal Medicine (2010).
